

Certificate IV in Dental Assisting

National ID: HLT45021 | State ID:BGW8

Are you ready to advance your dental assisting career?

The Certificate IV in Dental Assisting is ideal for qualified dental assistants who are looking to upskill, diversify, and be able to further assist the dentist within the dental practice.

On successful completion of this course you'll gain specialist skills and knowledge to construct dental models, fabricate Thermoformed appliances and take clinical photographs. You'll also learn additional sterilisation techniques and gain increased insight into practice administrative processes.

North Metropolitan TAFE's Dental courses are delivered in our newly fitted out Dental department at our conveniently located Leederville campus.

Students will need to provide evidence of current employment, as there is a requirement for evidence of 250 workplace hours to be collected.

Your qualification prepares you for roles such as:

Dental Assistant

Other job titles may include:

Dental Assistant in Orthodontics | Dental Receptionist | Dental Practice Manager | Dental Sales Representative

Further Study Option(s)

Diploma of Dental Technology
