

UEE50111 Diploma of Computer Systems Engineering

National ID: UEE50111 | State ID:A155

Are you ready for a high-end technology career?

When you complete the Diploma of Computer Systems Engineering, you will gain the skills and knowledge to assemble, test, maintain, and troubleshoot a range of electronic devices and computer systems. You will develop your skills to fault-find digital and microcontroller systems, and develop skills in design, configuration and fault-finding computer networks. This course also includes PCB CAD design, microcontroller and object oriented code programming.

By completing this course at South Metropolitan TAFE you will also gain valuable skills in Cisco CCNA and Cisco Wireless.

Dual qualification: Students will have the opportunity to concurrently complete A160 UEE50511 Diploma of Electronics and Communications Engineering with this course, as many units are common to both courses. Contact South Metropolitan TAFE for more information.

Your qualification prepares you for roles such as:

Further study opportunities:

When you complete the Diploma of Computer Systems Engineering you will be well on your way to a career as an engineering associate, technical officer or computer systems technician.
