

# RII50515 Diploma of Civil Construction Design

National ID: RII50515 | State ID:AZE3

The Diploma of Civil Construction Design reflects the role of personnel working as designers or design para-professionals who support professional engineers. They perform tasks involving a high level of autonomy and requiring the application of significant judgement in planning and determining the selection of equipment/roles/techniques for themselves and others.

They are required to develop site specific work designs to ensure the implementation of the client's site requirements. They demonstrate the application of a broad range of technical, managerial, coordination and planning skills.

The course content has been designed and selected as recommended and supported by industry to ensure graduates have a strong understanding of Australian standards, business practices, national codes and guidelines.

## Your qualification prepares you for roles such as:

The Diploma of Civil Construction Design reflects the role of personnel working as designers or design para-professionals who support professional engineers.
