

CPP50116 Diploma of Surveying

National ID: CPP50116 | State ID:BAI4

This course will further develop your skills by teaching you how to operate sophisticated surveying equipment and software for conducting more complex engineering surveys, including road design and set out surveys and more complex surveying tasks.

This Diploma has a focus on geodetic surveying including how to conduct geodetic surveys and perform computations. You will also develop industry-specific skills including how to design basic engineering structures and plan spatial data collection. A large selection of electives is available, such as producing maps for land management purposes, producing mine drawings and how to set out stormwater systems.

When you complete this Diploma, you will be eligible for an Associate membership of the Surveying and Spatial Sciences Institute (Engineering and Mining Commission).

Your qualification prepares you for roles such as:

Successful completion of this qualification prepares you for roles such as senior technical officer, surveying assistant, and mine/engineering surveyor.
