

CPP50911 Diploma of Building Design

National ID: CPP50911 | State ID:D772

Further your designing career in the building and construction industry

This course builds on the skills obtained in the Certificate IV in Residential Drafting and provides more drafting and design experience in **ArchiCAD and Revit software** for residential and small-scale building projects.

You will cover principles of **energy efficient design and sustainability** for design projects and occupational health and safety requirements for this booming industry.

Once you have completed this Diploma you will be able to work in a design office on commercial and residential projects with architects, builders, and project managers.

Your qualification prepares you for roles such as:

Successful completion of this qualification provides you with the opportunity to work in residential projects, commercial and industrial projects or service outlets and warehouses.

Successful completion of this qualification prepares you for roles such as: Building Designer, Architectural Draftsperson and Building Drafter. Other job titles may include: Building Contractor and Architectural Drafter.
